AR/DART/ 2019/20

### **Mandate**

The statutory mandate and responsibilities of the Controller and Auditor General are provided for under Article 143 of the Constitution of the URT of 1977 (as amended from time to time) and in Section 10 (1) of the Public Audit Act, 2008.

### **Vision**

To be a highly regarded Institution that excels in Public Sector Auditing.

### **Mission**

To provide high quality audit services that improves public sector performance, accountability and transparency in the management of public resources.

### **Core values**

In providing quality services National Audit Office is guided by the following Core Values:

<b>Objectivity</b>	We are an impartial organization, offering services to our clients in an objectives and unbiased manner.
<b>Excellence</b>	We are professionals providing high quality audit services based on standards and best practices.
<b>Integrity</b>	We observe and maintain high standards of ethical behaviour, rule of law and strong sense of purpose.
<b>People focus</b>	We value, respect and recognize interest of our stakeholders.
<b>Innovation</b>	We are a learning and creative public institution that promotes value added ideas within and outside the institution.
<b>Results Oriented</b>	We are an organization that focuses on achievement based on performance targets.
<b>Team work spirit</b>	We work together as a team, interact professionally, and share knowledge, ideas and experiences.

### **We do this by:**

- ✓ Contributing to better stewardship of public funds by ensuring that our clients are accountable for the resources entrusted to them;
- ✓ Helping to improve the quality of public services by supporting innovation on the use of public resources;
- ✓ Providing technical advice to our clients on operational gaps in their operating systems;
- ✓ Systematically involve our clients in the audit process and audit cycles; and
- ✓ Providing audit staff with adequate working tools and facilities that promote independence.

© This audit report is intended to be used by Dar Rapid Transit Agency (DART) and may form part of the annual general report which once tabled to National Assembly, becomes a public document hence, its distribution may not be limited.

## 1.0 INDEPENDENT REPORT OF THE CONTROLLER AND AUDITOR GENERAL

Chief Executive Officer,  
Dar es Salaam Rapid transport agency,  
P.O. Box 724,  
**DAR ES SALAAM.**

### 1.1 REPORT ON THE AUDIT OF FINANCIAL STATEMENTS

#### Opinion

I have audited the financial statements of Dar es Salaam Rapid Transit Agency (DART), which comprises the statement of financial position as at 30<sup>th</sup> June, 2020, and the statement of financial performance, statement of changes in net assets and cash flow statement and the statement of comparison of budget and actual amounts for the year then ended, as well as the notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the accompanying financial statements present fairly in all material respects, the financial position of Dar es Salaam Rapid Transport Agency as at 30<sup>th</sup> June, 2020, and its financial performance and its cash flows for the year then ended in accordance with International Public Sector Accounting Standards (IPSAS) Accrual basis of accounting and in the manner required by the Public Finance Act, 2001 (Revised 2004).

#### Basis for Opinion

I conducted my audit in accordance with International Standards of Supreme Audit Institutions (ISSAIs). My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the financial statements section of my report. I am independent of in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the National Board of Accountants and Auditors (NBAA) Code of Ethics, and I have fulfilled my other ethical responsibilities in accordance with these requirements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

#### Emphasis of Matter(s)

I draw attention to the matter below. My opinion is not modified in respect of this matter.

Note 26 to the financial statements indicates that DART conducted impairment assessment on one of its Non-current assets-Jangwani depot in the year under review. Among the identified impairment indicators were prolonged non-usage of the depot following frequent flooding of Jangwani area and desilting costs associated with the floods .As at 30<sup>th</sup> June 2020 the original cost of Jangwani depot stood at TZS 20,120,000,000 with carrying amount of TZS 16,900,800,000. Following impairment

assessment the impairment loss established amounted to TZS 16,900,800,000 and therefore the asset's carrying amount was brought down to zero.

#### **Key Audit Matters**

Key audit matters are those matters that, in my professional judgment, were of most significance in my audit of the financial statements of the current period. I have determined that there are no key audit matters to communicate in my report.

#### **Other Information**

Management is responsible for the other information. The other information comprises the Statement by the Chief Executive and the Declaration by the Head of Finance but does not include the financial statements and my audit report thereon.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon. In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work I have performed on the other information that I obtained prior to the date of this audit report, I conclude that there is a material misstatement of this other information; I am required to report that fact. I have nothing to report in this regard.

#### **Responsibilities of Management and those charged with Governance for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IPSAS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the entity's financial reporting process.

#### **Responsibilities of the Controller and Auditor General for the Audit of the Financial Statements**

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or

error, and to issue an audit report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISSAIs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISSAIs, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my audit report. However, future events or conditions may cause the entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in my audit report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

In addition, Section 10 (2) of the Public Audit Act, 2008 requires me to satisfy myself that, the accounts have been prepared in accordance with the appropriate accounting standards.

Further, Section 48(3) of the Public Procurement Act, 2011 requires me to state in my annual audit report whether or not the audited entity has complied with the procedures prescribed in the Procurement Act and its Regulations.

## 1.2 REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

### Compliance with the Public Procurement Act, No.7 of 2011 (as amended in 2016)

In view of my responsibility on the procurement legislation and taking into consideration the procurement transactions and processes I have reviewed as part of this audit, I state that except the matter discussed below, Dar Rapid Transit Agency (DART), procurement transactions and processes have generally complied with the requirements of the Public Procurement Act No.7 of 2011(as amended in 2016) and its underlying Regulations of 2013 (as amended in 2016).

### Procurement Plan not in Line with Approved Annual Budget for the Agency

**TZS 54,740,000,000**

Reg. 69 (7) of the PPR, 2013 states that, "A procuring entity shall draw up procurement plans for those requirements for which sufficient funds have been included in the approved budget in the current financial year or if payment will be due in subsequent financial year, such payment have been budgeted for."

My review noted that, DART agency planned to implement eight (8) tenders worth TZS 54,740,000,000 which were not included in the approved annual budget, of which a'm on the view that such weakness could result into unplanned expenditure and may affect implementation of planned activities.

Charles E. Kichere

DAR RAPID TRANSIT AGENCY

**STATEMENT BY THE CHIEF EXECUTIVE**

The financial Statements for the 2019/2020 fiscal year present the physical and financial status on implementation of activities during the year, the future plans and challenges that the Agency faced during implementation. During the period of reporting, the Agency tackled various issues to achieve its objectives. Almost seven years of preparations and development of Bus Rapid Transit (BRT) infrastructure, the DART Agency managed to start bus operations services along DART System Phase I corridor which is characterized by a modern, efficient and affordable transport for residents of the city of Dar es salaam. Provision of an Interim Service (ISP) which started on 10th May, 2016 was commissioned to UDA Rapid Transit (UDA-RT) who signed a concessional agreement with DART on 24th April 2015.

To prepare for fully fledged operations in the DART system that requires Bus Operator, Fare Collector, and Fund Manager, the Agency in January 2020 advertised Request for Qualification (RFQ) for Bus Operator under International competitive tender arrangement. The procurement process is ongoing and the RFP will be issued after approval of a short list. The Government is developing its own AFCS and it is expected to be completed by November 2021. The Bus Operator is expected to be procured by June 2021. The procurement process of Fund Manager has already been completed and CRDB Bank will be the Fund Manager under full operations arrangement. The contract for Fund Manager will be effective on attainment of full operations

The activities under review were financed by the Government of Tanzania, World Bank, GIZ and Urban Electrical Mobility Initiative (UEMI) of German. Other sources of income accrued from access fee, advertisement, parking and toilets along the BRT corridor. There is an increase on grants from the Government from TZS 1,651,662,227 in the year 2018/2019 to TZS 2,453,820,207 in 2019/2020 of which TZS 1,139,924,707 were for Personal Emoluments while TZS 638,363,000 were for other charges and TZS 675,532,500 was for development expenditure. The increase is due to development funds received for development of Automated Fare Collection System. Moreover, the World Bank grants have increased from TZS 3,691,171,135 in year 2018/2019 to TZS 4,094,845,790 in the year 2019/2020. The increase of grants from the World Bank is due to increase of activities performed by the Agency during the year. The Agency in the year 2018/2019 received the grant of TZS 103, 957,979 from GIZ but in the year 2019/2020, the Agency has not received any grant from GIZ. The Agency in the year 2019/2020 also received a grant of TZS 242,458,852 (TZS 56,210,222 for recurrent expenditure and TZS 186,248,630 for capital expenditure) from UEMI for the electrical Bajaj project.

THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY

We appreciate the financial support from the Government of Tanzania, Government of German and the World Bank. We also recognize support from government institutions such as TANROADS, LATRA, eGA, Treasurer Registrar and all other stakeholders for their support and team work spirit. I believe that our joint efforts will continue to enable smooth and efficient operations of DART project in the City which can reduce poverty, improve living standard and lead to sustainable economic growth. Good performance of the project can also act as a pioneer of private and public investment partnership in the transport sector in the city.

The Agency is determined to increase the level of mobility, promote the use of non-motorized transport, and meet the ever increasing travel demand so as to ensure orderly flow of traffic on urban streets and roads around the city with ultimate aim of increasing comfort and quality of life and urban development.

Eng. Ronald M. Lwakatare

CHIEF EXECUTIVE

DATE: 20/01/2021

**THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY  
MANAGEMENT REPORT OF THE AGENCY**

## **1. INTRODUCTION**

The Dar Rapid Transit (DART) Agency was established by GN No.120 of 25<sup>th</sup> May, 2007 under the Executive Agencies Act No. 30 of 1997 and its subsequent amendments. The Agency operates under the guidance of the President's Office, Regional Administration and Local Government (PO-RALG). The Agency was officially launched on 16<sup>th</sup> June, 2008 and aims at achieving the following objectives:

- (i) Establishing and operating a Bus Rapid Transit (BRT) system for Dar es Salaam;
- (ii) Ensuring orderly flow of traffic on urban streets and roads; and
- (iii) Ensuring effective management of the Agency.

The Vision of the Agency is to "have a modern public transport system at reasonable cost to the users and yet profitable to the operators using a high quality capacity buses which meet international standards, environmentally friendly, operating on exclusive lanes, at less travelling time and ensuring user satisfaction". With a Mission of providing quality, accessible and affordable mass transport system and improve urban mobility for the residents of Dar es Salaam which will subsequently, enable poverty reduction, improve living standard and lead to sustainable economic growth and act as a pioneer of private and public investment partnership in the transport sector in the city.

### **1.1 FUNCTIONS OF THE AGENCY**

According to the Dar Rapid Transit Agency Establishment Order, of May 2007, the Agency has the following functions:

- (i) Prepare, implement Strategic and Business plans and associated budgets;
- (ii) Implement approved plans, including the achievement of performance targets;
- (iii) Ensure delivery of DART system and services to customers and, on schedule and to the expected standard;
- (iv) Organise and manage all Agency's resources allocated to it efficiently, economically and in accordance with the principles of fairness and equality as outlined in Government policies and Financial Regulations;

## **FUNCTIONS OF THE AGENCY (CONTINUED)**

- (v) The setting of user tariffs for products and services for the recovery of operational costs plus a reasonable development margin;
- (vi) Prepare Annual Report and Audited Financial Statements in accordance with Public Finance Act and Regulations for submission to the Permanent Secretary and the Minister for Prime Minister's Office Regional Administration and Local Government;
- (vii) Ensure that all aspects of the management and organisation are kept under review and that they suit DART' business needs best;
- (viii) Ensure the development and implementation of DART system succeed;
- (ix) Negotiate and monitor support provided by donors for implementation of the DART system;
- (x) Appoint and manage effectively employees of the DART in accordance with the Public Service Act and its regulations;
- (xi) Ensure DART system is managed efficiently taking into consideration National Policies and Legal requirement; and
- (xii) Work closely with other key players in the City to ensure better delivery of DART system and services.
- (xiii) The DART Agency Management has the pleasure in submitting the financial statements of the Agency for the year ended 30 June, 2020.

## **2. CORE VALUES**

**Core values of the Agency are as follows;**

- (i) Customer Focus - To have customer driven quality;
- (ii) Innovativeness - To have a philosophy of continuous improvement;
- (iii) Cost Effective - By making it accessible to low-income users, while at the same time profitable for private operators and fundable by the state;
- (iv) Timeliness - To promote timely delivery of services;
- (v) Team Work - To encourage and respect team work spirit among staff;
- (vi) Safety - To promote a safe and secure system;
- (vii) Sustainability - To be a financially self-sufficient system;
- (viii) Environmentally Friendly - To promote reduction of motor vehicle emissions and pollution and
- (ix) Poverty Reduction - To foster economic growth and improve standards of living.

**THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY  
MANAGEMENT REPORT OF THE AGENCY (CONTINUED)**

**Achievements during the year**

During the Financial Year 2019/20 the following were the main activities that were carried out:

- (i) Effective management of Transitional Service Provider (TSP) contract agreement between DART and the transitional service provider (UDART) by enhancing the transparency and quality of service in DART system phase 1. DART achieved this through enforcing monthly monitoring and supervision of TSP services (monitoring KPIs, non-compliance areas and taking contractual measure as per TSP contract).
- (ii) Effective supervision of travel service at DART system. There has been fairly steady average passenger ridership from July 2019 to February 2020. However, there is a reduction of average daily passengers ridership from March 2020 to May 2020 due to level seating directives from the government and the private vehicles licencing to offer public transport as the measures taken in the fight of Corona Virus of 2019 (COVID-19) outbreak. But, later the average daily passenger ridership started to improve from June 2020 onwards, after removal of such measures.

**Average Daily Passenger Ridership July 2019 to June 2020**

**(iii) Inventory of infrastructure.**

In order to inform the Agency on the maintenance needs, the Agency has updated an inventory of all infrastructures falling under the jurisdiction of the

THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY

Agency. The inventory of infrastructure also serves as immediate input in various areas of operations and infrastructure management.

This inventory covers the terminals, pedestrian bridges, stations and the depot. Major components are walls, windows, doors, roof ceiling, roof coverings, gutters, steel columns, water downpipes, toilets, furniture, fittings, finishing, ITC/AFCS systems, directional signage, generators, pedestrian bridges, and security lights. The information contained therein will form a basis for preparation of fare collectors' contract who will also carry out the functions of station management.

**(iv) DART has completed the valuation and verification for Compensation of PAPs for DART System Phase II and III**

**Phase II:** The Agency received all the compensation funds for Phase II from the Government amounting to TZS 34,199,451,962 by the end October, 2018. Phase 2 has the total of 104 project affected persons (PAPs) whereby up to the end of the Financial Year 2019/2020, a total of 90 PAPs have been paid the total compensation amount of TZS: 28,568,763,067 while 14 PAPs remain unpaid the total amount of TZS: 5,630,688,895. Among those 14 unpaid PAPs, some of them had land disputes which have been resolved while others are Government Institutions which the Government declared that they should not be paid compensation through this arrangement. The arrangement for payments of PAP which had land disputes is underway. The PAPs have been compensated at Mbagala site for the Terminal and Depot, Mtoni Kijichi, Mtoni kwa Azizi Alli and Chang'ombe for the feeder stations and Keko for the road corridor.

**Phase III:** The Ministry of Finance and planning (MoFP) released TZS 5,271,370,293.42 on April 2019 for compensation of 78 PAPs for DART project Phase III. The payment of compensation funds to PAPs commenced on July, 2019. To date, all PAPs have been compensated. The PAPs have been compensated at Gongo la mboti site for the Bus Terminal, Mombasa street for the feeder station and Ukonga and Airport streets for the road corridor.

## **2.1 CHALLENGES AND WAY FORWARD**

The following challenges were encountered and the way forward:

**(i) Invasion of DART infrastructure by petty traders, vehicles and motor cycles.**

The invasion of petty traders to DART infrastructure causes different problems such as uncleanliness at the stations and terminals and the corridor at large. Also, the invasion of vehicles and motor cycles causes the threat of increased

THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY

accidents at the DART lanes. However, the Agency has continued to engage key stakeholders that include the Police, Municipalities, the Regional Commissioner, the Regional Administrative Secretary and District Commissioners in resolving the invasion issue. The Agency is proceeding with education campaign to all stakeholders on proper usage of the DART system.

**(ii) Deterioration of services including delays of buses**

The deterioration of services normally arises from the issues of punctuality and availability of buses. The number of buses available in provision of travel service determines the level of service to passengers. The frequent breakdown of buses causes disruption of travel services as it reduces the number of buses available for passengers, hence increases delays contrary to intended objectives of DART travel service.

However, the Agency has continued to monitor the key performance indicators as stipulated in the TSP Agreement and work with UDART team to performance. UDART repaired buses to increase the number of buses on the road. Follow up was frequently done with Traffic Police to improve flow of buses through junctions. The number of cashiers was increased to reduce congestion at the stations.

The Agency is working with the UDART team to ensure performance is improved. Efforts are underway to have a full service with increased feeder routes through a procurement process.

**(iii) Flooding at Msimbazi valley**

Flooding at Msimbazi valley affect the Jangwani depot and blocked the normal flow of vehicles. However, cleaning of infrastructures (depot and bus ways) which started in June, 2018 to date together with frequent desilting of Msimbazi river as one of the short term solution, has not been successful. As a result, the designed functions of the depot are totally closed hence affecting the total bus operation system. Moreover, the surrounding areas are also facing similar situation to the extent that all other social activities which were formally being conducted such as both political and religious congregations, play grounds, car packing and all other similar activities are currently totally stopped. In that regard, has caused a tremendously decrease in use value of the depot site.

However, in insuring that bus operations are not affected, the Management is closely following up the ongoing Hydrological study, detailed engineering design and feasible option for safeguarding the depot which is being done by

THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY

TANROADS through Consultant; M/S CDR Intenational B.V in association with M/S Deltares and M/S Wema Consultants.

**(iv) Unavailability of the site for Bus Depot at Gongo la Mboto**

The Agency had been explored the sites for bus depot for Phase III within the Military land at Gongo la mboto. The Ministry of Defense and National Services initially provided the site to be used under the DART project but later on cancelled such arrangement for security reasons. However, the Agency has already been given the Kilitex area which is also at Gongo la mboto as an alternative site for construction of phase 3 BRT depot.

## 2.2 FUTURE PLAN

### 2.2.1 DART System Phase II

The BRT phase II that is presently in construction is expected to be completed in May 2022. The construction works have been divided into two separate lots:

**a) Lot 1: Road works (20.3 km roads, 2 flyovers and 27 bus stations)**

The Lot 1: Road Works of DART Phase II comprises of 20.3km of dedicated bus lanes and mixed traffic lanes, 2 Fly-overs at VETA and Uhasibu and 27 Bus stations at the median of the corridor. The Contractor for Lot 1 is Sinohydro Corporation Limited from China while the Consultant is BOTEK Bosphorus Consulting Corporation from Turkey. The infrastructure construction for Lot 1 commenced on 6<sup>th</sup> May, 2019 and are planned to be executed for a period of 3 years to be completed on 5<sup>th</sup> May, 2022.

**b) Lot 2: Building works (1 Depot, 2 terminals and 4 feeder stations)**

The Lot 2: Building Works of DART Phase II comprises of 1 Bus Depot at Mbagala, 2 Bus Terminals at Mbagala and Kariakoo Gerezani and 4 Feeder Stations at Chang'ombe/DUCE, Mtoni kwa Azizi Ally, Mtoni Kijichi (Misheni) and Zakhem. The Contractor for Lot 2 is M/s China Civil Engineering Construction Corporation (CCECC) from China while the Consultant is M/s Inter Consult Limited from Tanzania. The infrastructure construction for Lot 2 commenced on 1<sup>st</sup> March, 2019 and are planned to be executed for a period of 2 years to be completed on 31<sup>st</sup> July, 2021.

The Phase II BRT corridor is designed to be along Kilwa Road (from the City centre to Mbagala area) including Sokoine Avenue, (from Zanaki Street to Gerezani round about), Gerezani Street (from Gerezani round about to Nyerere-Msimbazi junction), Bandari Street (from Gerezani round about to Benderatatu), Chang'ombe Road (from Jitegeme round about to Nyerere-Kawawa junction)

**THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY**

and South Kawawa road (from Nyerere-Kawawa junction to Kawawa-Morogoro junction) with a total of 20.3km.

It involves the construction of BRT infrastructure that includes 20.3 km of exclusive BRT lanes, 27 Bus Stations at the median of the corridor, 2 Terminals at Mbagala and Kariakoo Gerezani, 2 Fly-overs at VETA (Nyerere - Kawawa - Chang'ombe junction) and Uhasibu (Kilwa - Mandela junction), 1 Depot at Mbagala and 4 Feeder Stations at Chang'ombe/DUCE, Mtoni kwa Azizi Ally, Mtoni Kijichi (Misheni) and Zakhem.

The BRT phase II system is similar to BRT Phase I configuration with bus services running in the middle of the road corridor.

### **2.2.2 Financing and Development of DART Phase III - VI Infrastructure**

#### **Development of DART System Phase III**

The Government of the United Republic of Tanzania (GOT) has received a Credit from the International Development Association (IDA) in the form of IDA Regular Credit in the amount of US\$ 225 million and IDA Scale-Up Facility (SUF) Credit in the amount of US\$ 200 million, to support the Dar es Salaam Urban Transport Improvement Project (DUTP). The implementing entities of the Project are Tanzania National Roads Agency (TANROADS) and Dar Rapid Transit Agency (DART). The DUTP project has three main components: The Construction of Ubungo Interchange and Associated Facilities; the Implementation of BRT Phase 3 and 4; and the Improvement of BRT Phase 1.

For Phase 3, the initial infrastructure designs were undertaken by the Consultant; Kyong Dong Engineering Co. Ltd from Korea in association with Ambicon Engineering Co. Ltd from Tanzania. The Consultants; M/s DOHWA Engineering Co. Ltd in association with UNITEC Civil Consultants Ltd. were then procured through TANROADS to undertake design review and supervision of works. This assignment has been completed with the final reports submitted and approved.

Phase 3 infrastructure include 23.6km of exclusive bus lanes, 3 bus terminals at Kariakoo, Airport and Gongo la mboto, 1 bus depot at Gongo la mboto, 3 feeder stations at Mombasa, Jet Club and Banana, 32 convectional bus stations, 5 pedestrian bridges and non-motorized facilities.

**THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY**

**Development of DART System Phase IV, V and VI**

Phase 4 covers 30.1km with the corridor runs along Sam Nujoma, Ali Hassan Mwinyi and Bagamoyo roads to Boko. The Consultants; Kunhwa Engineering & Consulting Co. Ltd from Korea has been procured to undertake feasibility study and detailed engineering design. The consultant has already submitted the first draft of detailed engineering design reports.

The same Consultant; Kunhwa Engineering & Consulting Co., Ltd was procured to undertake the feasibility study and detailed engineering design of DART system phase 5. The consultant has submitted the final reports. Its corridor has a total of 27.6 km and runs along Mandela road from Ubungo through TAZARA to Uhasibu connecting the road to and terminating at Kigamboni Bridge. It also includes Tabata road from Segerea through Kigogo road to Kigogo roundabout.

The corridor for DART system Phase 6 covers a total of 26.5 km of MwaiKibaki road and the extensions for Phase I & II from Kimara to Kibamba and Mbagala to Vikindu respectively.

The six Phases of DART system are planned to be completed and be in full operational by 2030.

**2.4 SUSTAINABILITY OF THE AGENCY**

The Agency operates under the guidance of the President's Office, Regional Administration and Local Government - (PO-RALG). As such it receives its fund from normal Government budget to meet both recurrent and development expenditure. On the other hand, the Agency has training program for its staff, in order to equip them with appropriate knowledge. The agency also collaborates with all stakeholders in its day to day operations.

**2.5 EMPLOYEES WELFARE**

There were continued good relation between employees and management for the year 2019/20. All major decisions affecting employees were discussed in the management meetings. To allow employees unity, mobilization and togetherness at work place the Management of DART Agency have entered into a contract to form workers' council, after meeting all the required qualification which includes having workers association where by TUGHE branch is formed with more than 20 members.

**2.6 CAPACITY BUILDING TO STAFF AND STAKEHOLDERS.**

The DART organizational structure is at the final stage waiting for Chief Secretary Approval. Currently the AGENCY has sufficient staff except few staff of technical area, such as Quantity Surveyor Engineer and Environment Engineer. Also Staff from different departments and sections has been facilitated to attend short courses in various areas which have enhanced them with required skills and knowledge.

**FINANCIAL REPORTING**

This part covers the statement of Management responsibility, commentary to the financial statement, statement of declaration of head of finance and business development, and financial statements for the year ended 30<sup>th</sup> June 2020.

**1.1.1 STATEMENT OF MANAGEMENT RESPONSIBILITY FOR THE YEAR ENDED 30 JUNE 2020**

Section 25(3) of the Public Finance Act 2001, as revised in 2004, requires management to prepare Financial Statement for each financial year, which gives a true and fair view of receipts and payments of the reporting entity as at the end of the financial year. It also requires management to ensure the reporting entity keeps proper accounting records, which disclose with reasonable accuracy at any time the financial position of the reporting entity. They are also responsible for self-guarding the assets of reporting entity. Management accepts responsibility for the annual Financial Statement, which have been prepared using appropriate accounting policies supported by reasonable judgments and estimates, in conformity with the Accrual Basis International Public Sector Accounting Standards (IPSAS). Financial Reporting under the Accrual Basis of Accounting, and in the manner required by the Section 25(4) of the Public Finance Act 2001. Management is of the opinion that the Financial Statement gives a true and fair view of the state of the financial affairs of the reporting entity. Management further accepts responsibility for the maintenance of accounting records that may be relied upon in the preparation of financial statement, as well as adequate systems of the internal financial control. Management is responsible for safe guarding the assets of the reporting entity and hence for taking reasonable steps for the prevention and detection of fraud, error and other irregularities. To the best of our knowledge, the system of internal control has operated adequately throughout the reporting period and that records and underlying accounts provide a reasonable basis for the preparation of the financial statements, the information it contains, and its compliance with the Public Finance Act 2001 and instructions from the treasury. Procurement of goods, works, consultancy and non-consultancy services to the extent that they are reflected in these financial statements have been done in accordance with the Public Procurement Act No. 9 of 2011. Nothing has come to the attention of the management to indicate that the Agency will not remain a going concern for at least the next twelve months from the date of this statement.

FINANCIAL REPORT (CONTINUED)

**1.2 STATEMENT OF DECLARATION OF THE HEAD OF FINANCE**

The National Board of Accountants and Auditors (NBAA) according to the power conferred under the Auditors and Accountants (Registration) Act. No. 33 of 1972, as amended by Act No. 2 of 1995, requires financial statements to be accompanied with a declaration issued by the Head of Finance/Accounting responsible for the preparation of financial statements of the entity concerned.

It is the duty of a Professional Accountant to assist the Board of Directors/Governing Body/Management to discharge the responsibility of preparing financial statements of an entity showing true and fair view of the entity position and performance in accordance with applicable International Accounting Standards and statutory financial reporting requirements. Full legal responsibility for the preparation of financial statements rests with the Management as under Management statement of Responsibility on an earlier page.

I, **SUZANA STEVEN CHAULA** being the Head of Finance and Business Development of DART Agency hereby acknowledge my responsibility of ensuring that financial statements for the year ended 30<sup>th</sup> June, 2020 have been prepared in compliance with applicable accounting standards and statutory requirements.

I thus confirm that the financial statements give a true and fair view position of the DART Agency as on that date and that they have been prepared based on properly maintained financial records.

Signed by:

Position: **Director of Finance and Business Development**

NBAA Membership No. GA 5404

DAR RAPID TRANSIT AGENCY**

**FINANCIAL REPORT (CONTINUED)**

**1.3 COMMENTARY ON THE FINANCIAL STATEMENTS FOR THE YEAR  
ENDED 30 JUNE 2020**

**1.3.1 INTRODUCTION**

The DART Agency implemented its annual budget based on the Medium Term Expenditure Framework and the rolling Medium Term Strategic Plan covering the period of five years

**1.3.2 OVERVIEW OF FINANCIAL STATEMENTS**

The following are comments regarding the Financial Statements of DART Agency, which elaborate more on the figures appearing in the Statement of Financial Position, Statement of Financial Performance, Statement of Comparison of budget and actual amount up to 30 June 2020.

**1.3.2.1 Financial Position**

Financial position comprises of cash and cash equivalent, Inventories, Prepayment, Receivables, Property, Plant and Equipment, Intangible Assets, Payables, Deferred Income, Deposits, and Net Assets/Equity

**1.3.2.2 Cash and Cash Equivalent**

Cash and Cash Equivalent as at 30th June 2020 is TZS 6,687,222,267. This fund comprises of own source, other charges and development funds for payment of land compensation and electrical Bajaj project.

**1.3.2.3 Receivables and Inventories**

Receivables as at 30th June 2020 were TZS 5,992,263,441, whereas in the previous year there were receivables amounting to 4,751,101,620 (restated). The increase in receivables was caused by increase in performance deductions charged to service provider for underperformance as per TSP contract and also the government directives to all government entities that received compensation for land acquisition to return the amounts compensated. Inventories during the year amounted to 102,260,050 where as in the previous year was TZS 52,866,109. The increase was due to the fact the Agency bought in bulky inventories at the period close to the year end.

**THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY**

**1.3.2.4 Property, plant and Equipment (PPE)**

The total carrying amount of PPE as at 30th June 2020 was TZS 117,642,659,854 as compared to TZS 130,889,176,738 for the financial year ended 30th June 2019. The decrease was due to transfer of infrastructural assets (BRT lanes and Polls) that belong to TANROADS and vehicle with registration number STK 7720 TOYOTA LANDCRUISER SW GX that was transferred to PO-RALG.

**1.3.2.5 Intangible assets**

There is no value for intangible assets for the year 2019/20 due to the fact that intangible assets have been fully amortized during the year, while for financial year 2018/19 was TZS 7,669,348.

**1.3.2.6 Payables**

During the year ended 30th June, 2020 payables were TZS 499,531,206 and for financial year 2018/19 payables was TZS 1,035,573,380. The decrease was due to the fact that the Agency paid its long outstanding liabilities to its suppliers.

**1.3.2.7 Deferred Income**

During the year 2019/20 Recurrent Deferred Income was TZS 383,054,048 and Capital Deferred Income was TZS 186,248,630 where as in the previous year, Recurrent Deferred Income of TZS 95,549,337 only. The increase was due to funds received from UEMI of German specifically for electrical Bajaj project which its implementation is not yet started.

**1.3.2.8 Net asset/ Equity**

The financial year ended 30th June 2020 DART has the total of net asset of TZS 129,355,571,730 while for the previous year was 145,957,971,620. The decrease was due to the retrospective effect of corrections made on depreciation estimates as per government circular no. 6 of 2017/2018 and the decision of the management to review the useful life of some of the non-current assets that had zero carrying value.

**THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY**

**1.3.3 FINANCIAL PERFORMANCE**

**1.3.3.1 Revenue from exchange transactions**

These are monies received from permits on billboards and posters, access fees received from service provider, parking fees, sanitary charges and monies from sale of tender documents. The financial year ended 30th June, 2020 shows that DART earned revenue of TZS. 4,667,969,836 compared to TZS 4,729,010,724 collected in the financial year 2018/19. The decrease was caused by frequent closure of toilets as part of infrastructural maintenance during the year 2019/2020 and end of advertisement contract between the DART and Spark Venture in April 2020.

**1.3.3.2 Revenue from Non Exchange Transaction**

In financial year 2019/20 non exchange revenue was TZS 7,048,793,338 and for financial year 2018/19 was TZS 36,817,784,836. The decrease was caused by the fact that during the year 2019/20 no funds have been received from the Government for acquisition of land as compared to previous year.

**1.3.3.3 Grants Amortization for the year**

In the financial year 2019/20 grants amortization was TZS 6,317,371,508 while for financial year 2018/19 was TZS 5,247,284,025 the decrease is mainly due to due to expenditure of funds received from the government for development of the AFCS system, which was not in previous year. Grants amortization involves the monies that have been incurred during the year that relates to grants received from government and other donors. The amortized grants for the year 2019/20 include TZS 1,139,924,707 for personnel emoluments, TZS 449,453,608 for other charges, TZS 541,075,000 for the development of AFCS, TZS 4,094,845,790 from World Bank, and TZS 92,072,403 from GIZ (TUMI) for development of an application called city navigator that is intended to help commuters plan their travel.

**1.3.3.4 Wages, salaries and Employment Benefits**

In financial year 2019/20 wages and salaries were TZS 2,314,088,869 and for financial year 2018/19 was TZS 2,469,403,566. The decrease is due to transfer of some employees to other government entities that occurred during the year.

**1.3.3.5 Supplies and Consumable goods**

In financial year 2019/20 supplies and consumable goods were TZS 6,321,383,005 and for financial year 2018/19 was TZS 6,668,276,067. The

THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY

decrease was due to the continuous decision of the management to spend only on value for money expenditures with the intention of cutting down costs of the Agency.

**1.3.3.6 Depreciation and amortization**

During the year DART charged TZS 1,828,783,564 as Depreciation and amortization from Non-Current assets, the previous year depreciation was TZS 4,234,942,321. The decrease was caused by correction of depreciation estimates as per government circular no. 6 of 2018/19 and the management decision to review useful life of some of non-current assets that had zero carrying value. Also, the decrease is due to the transfer of infrastructural assets (BRT lanes and Polls) to TANROADS and vehicle with registration number STK 7720 TOYOTA LANDCRUISER SW GX that was transferred to PO-RALG.

**1.3.3.7 Maintenance Expenses**

In financial year 2019/20 maintenance expenses was TZS 948,966,127 and for financial year 2018/19 was TZS 777,378,273. The decrease was due to decrease of maintenance cases during the year compared to previous year.

**1.3.3.8 Impairment Loss**

In financial year 2019/20 there is impairment loss of TZS 16,905,941,500. During the year 2019/20 the management assessed the impairment of both Jangwani depot at Jangwani area and Bore holes at Kivukoni terminal. Jangwani depot is currently facing frequently inaccessibility due to environmental and climatical changes that cause abundantly silt and mud brought by over flooding over the area. The designed functions of the depot are totally distorted hence affecting the total bus operation system, thus the potential utility of this area had declined significantly. Similarly, the potential utility of bore hole at Kivukoni has declined due to high content of salt in water that causes destruction and damages of such bore hole. Thus, the management has sought that it is important to assess the impairment of the depot and bore holes.

The management assigned the qualified valuer from Ilala Municipal Council to undertake the assessment and provide report that is approved by the Government Chief Valuer. The report shows there is zero current value for both Jangwani depot and Bore holes at Kivukoni Terminal. However, the carrying value for Jangwani Depot and Bore holes are TZS 16,900,800,000 and TZS 5,141,500 respectively higher than the assessed values, therefore, these assets are impaired and the impairment loss is TZS 16,905,941,500 (Note 26)

**THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY**

**1.3.3.9 Surplus/ (Deficit) for the year**

In financial year 2019/20 there is a deficit of TZS 16,602,399,891 while in the previous year there was a restated surplus of TZS 27,396,795,333. The decrease of surplus for the year 2019/20 is mainly caused by non-receiving of funds for land acquisition for the year 2019/20, unlike the previous year.

**1.3.4 Auditors**

The Controller and Auditor-General (CAG) is the statutory Auditor for the Agency pursuant to the provisions of Article 143 of the Constitution of the United Republic of Tanzania of 1977 (revised 2000), Section 9 - 12 of the Public Audit Act, 2008, Section 30(1) sub sect (a) and sub sect (b) of the Public Finance Act No 6 of 2001 (revised 2004).

\*Reasons for change on comparison between the budget and actual are explained in the following page (Page no. 24)

THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY

**REASONS FOR CHANGE ON COMPARISON BETWEEN THE BUDGET AND ACTUAL**

The final budget of financial year 2019/20 was TZS 21,283,389,629 and the actual receipts amount was TZS 10,949,354,693. The actual fund received is less than the budgeted amount; this is significantly caused by the carryover funds from previous year year that is included in the budgeted figure.

**(i) Revenue from exchange transactions**

The final budget for revenue from exchange transactions was TZS 4,847,089,703 and the actual amount collected was TZS 4,290,770,090. The difference was due to frequently closure of toilets, end of advertisement contract for Spark Venture Company and non-payment of some advertisement companies due to COVID-19 outbreak.

**(ii) Revenue from non-exchange transactions**

The final budget for revenue from non-exchange transactions TZS 16,436,299,926 and the actual amount collected was TZS 6,658,584,602. The difference was caused by carry over funds from previous year.

**(iii) Maintenance Expenses**

In financial year 2019/20 budget for maintenance expenses were TZS, 1,410,413,839 and the actual amount spent was TZS 878,888,656. The difference was due to the fact that amounts available for expenditures depends on the actual collections, since collection were not met as budgeted obvious the expenses will be less than budgeted.

**(iv) Wages, salaries and Employment Benefits**

The final budget for wages, salaries and Employee Benefits is TZS 3,113,429,628 and actual amount spent TZS 2,336,181,369. The difference was due to transfer of some of employees to other government entities that occurred during the year.

**(v) Supplies and Consumables Goods.**

The final budget for supplies and Consumable Goods for financial year 2019/20 were TZS 7,462,069,807 and actual amount spent was TZS 6,954,804,094. The difference was due to the fact that amounts available for expenditures depends on the actual collections, since collection were not met as budgeted obvious the expenses will be less than budgeted.

**THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY**

**(vi) Acquisition of Property, Plant and Equipment**

The final budget for acquisition of property, plant and equipment was TZS 9,297,476,354 and actual amount spent was TZS 5,480,538,829. The difference was caused by the fact that land owners were not compensated because of pending court cases and the fund for electrical Bajaj project has not yet spent.

PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY**

**NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020**

**1.0 BASIS OF PREPARATION AND STATEMENT OF COMPLIANCE**

**1.1 BASIS OF PREPARATION**

The financial statements have been prepared on a historical cost basis. The financial statements are presented in Tanzanian Shillings (TZS) and all values are rounded to the nearest shillings.

**1.2 STATEMENT OF COMPLIANCE**

The financial statements of the Agency have been prepared in accordance with International Public Sector Accounting Standards (IPSAS) Accrual basis of Accounting, and comply with the Public Finances Act, 2001 as amended in 2004, and Accounting Circular no. 6 on the preparation of financial statements and other financial reports and closure of the financial year 2019/20 issued by Ministry of finance and Planning.

**2.0 AUTHORISATION DATE**

The Financial Statements of the Agency has been authorized on 24.09.2020

**3.0 REPORTING ENTITY**

The reporting entity is Dar Rapid Transit (DART) Agency which was established by GN No.120 of 25<sup>th</sup> May, 2007 under the Executive Agencies Act No. 30 of 1997 and its subsequent amendments.

**4.0 GOVERNMENT BUSINESS ENTITIES**

The Dar Rapid Transit (DART) Agency operates under the guidance of the President's Office, Regional Administration and Local Government (PO-RALG). The Agency was officially launched on 16<sup>th</sup> June, 2008.

**5.0 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ESTIMATES**

**5.1 ACCOUNTING POLICIES**

The accounting policies adopted are consistent with those of the previous financial year.

THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY

**Notes (continued)**

**5.1.1 Revenue Recognition**

Revenue comprises of the fair value of grants received from the government and other donors, fees charged on services rendered to the customers such as parking fees, access fees, levies and fees from permits on billboard and posters rentals.

Revenue is recognized as follows:

**Parking fees**

Revenue is recognized when the cash is received from the customers for the usage of the Agency's parking lots in designated areas.

**Access fees:**

Revenue is recognized for the usage of BRT infrastructures (BRT lanes, stations and terminals) by the bus operator

**Permit and billboard fee**

Revenue is recognized for the usage of BRT infrastructures (pedestrian's bridges, stations and terminals) by the advertising companies.

**Fines and Penalties**

For contractual customers, revenue is recognized when the customer fails to comply with the contract terms, however, for non-contractual parties, revenue is recognized when the cash is received.

**Sanitary Charges**

Revenue is recognized when the cash is received from the customers for the usage of toilet services.

**Government Subvention:**

Subvention comprises of funds received from Treasury to cater for Personal emoluments (PE)/employees' salaries and other operational costs. These are unconditional and therefore are recognized and credited to the statement of financial performance in the period in which they are received.

**Grants:**

Grants comprises of grants from Treasury and World Bank.

**THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY**

(i) Grants from Treasury: These are issued to the Agency; the funds are released as per approved budget; the amounts are recognized when received.

(ii) Grants from World Bank: These are received from the World Bank and are recognized in the period in which they are received.

#### **Amortization of Grants**

The grants have been recognized as income over the periods necessary to match them with the costs for which they are intended to compensate, on a systematic basis. Therefore, the revenue is amortized to the extent to which condition has been fulfilled.

#### **5.1.2 Interest income**

Interest Income is an income from the interest earned on cash temporarily held in fixed deposits, call account deposits, or purchase of the treasury bill. The Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

#### **5.1.3 Foreign currency translation**

##### **Functional and presentation of foreign currency**

Items included in the financial statements of the Agency are measured using the currency of the primary economic environment in which the Agency operates ("the functional currency"). The financial statements are presented in Tanzanian Shillings (TZS), which is the Agency's functional and presentation currency.

##### **Transactions and balances**

Foreign currency transactions are translated into Tanzanian Shillings using the BOT exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the statement of financial performance.

#### **5.1.4 Property, Plant and Equipment**

Property, plant and equipment is stated at cost, excluding the costs of day-to-day servicing, less accumulated depreciation and accumulated impairment in value. Such cost includes the cost of any replacement parts in accordance with the related recognition criteria.

##### **Recognition**

The cost of an item of Property, Plant and Equipment is recognized as an asset if, and only if the asset is being controlled by the Agency; it is probable that future

**THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY**

economic benefits or service potential associated with the item will flow to the Agency; and the cost of the item can be measured reliably.

**Measurement**

Property, Plant and Equipment are stated at cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

**Derecognition**

The carrying amount of an item of property, plant and equipment is derecognized when asset is disposed; or when no future economic benefits or service potentials are expected from its use or disposal. Gains and losses on de-recognition of Property, Plant and Equipment is determined by reference to their carrying amount and is taken into account in determining operating profit.

**Subsequent Measurement**

Expenditure incurred to replace a component of item of Property, Plant and Equipment is accounted for separately and capitalized only when the amount is material, it is probable that future economic benefits or service potentials associated with the item will flow to the Agency and the cost of the item can be measured reliably. All other expenditure items are recognized in the income statement as expenses during the financial period in which they are incurred.

**Depreciation**

DART uses straight-line method for depreciation of its Non-Current Assets. Depreciation is charged on prorated basis from the month of purchase. The annual rates of depreciation that have been consistently applied are as follows:

Description	Useful life (years)	Depreciation Rate (%)
Buildings	50	2
Infrastructural assets	100	1
Computers Desktop and Laptop	4	25
Printers	7	14
Furniture, fixtures & Equipment	5	20
Motor Vehicles (light duty)	5	20
Motor Cycles	7	14
Office Equipment's	5	20

THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY

### **Impairment of Asset**

Impairment loss occurs when the carrying amount of an asset or cash-generating unit exceeds its recoverable amount. Carrying amount is the amount at which an asset is recognized in the statement of financial position after deducting accumulated depreciation and accumulated impairment losses, while recoverable amount is the higher of an asset's fair value less costs to sell and its value in use. Impairment, therefore, reflects a decline in the utility of an asset to the entity that controls it. The asset is regarded as impaired as it is no longer capable of providing the entity with service potential - it has little, or no, utility for the entity in contributing to the achievement of its objectives.

The management assesses the impairment of its assets on annual basis and/or any time where there are indications for impairment of any of its assets to determine whether the assets are impaired or not.

#### **5.1.5 Intangible Assets**

Intangible assets are initially recorded at historical cost and accounting for intangible assets is based on its useful life. An intangible asset with finite useful life is amortized and an intangible asset with indefinite useful life is not. Maintenance of the intangible assets is charged to the income statement during the financial period in which they are incurred.

#### **Amortization**

The depreciable of intangible asset with a finite useful life shall be allocated using straight line basis at 33.3%. The amortization shall cease at the date that asset is derecognized. Amortization period and the amortization method for an intangible asset with finite useful life shall be reviewed at least at each reporting date if the expected useful life of the asset is different from the previous estimate.

#### **Residual Value**

An intangible asset with finite useful life residual value shall be assumed to be zero unless there is an active market for that asset.

#### **5.1.6 Investments and other financial assets**

Financial assets are classified at fair value as appropriate. When financial assets are recognized initially, they are measured at fair value.

The Agency determines the classification of its financial assets on initial recognition and, where allowed and appropriate, re-evaluates this designation at each financial year end.

**THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY**

**5.1.7 Inventories**

Inventories are valued at the lower of cost and net replacement cost. The cost for inventory is determined on First in First out basis.

**5.2 Accounting Estimates**

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future. In the process of applying the Agency's accounting policies, management has made estimates, in the determination of the useful lives

**6.0 Disclosures**

**6.1 Contingent Liability**

The Agency has three pending cases. The first one is Land Case No. 22 of 2019 between Edis Mlingi (plaintiff) and The Agency (respondent) which is pending in the High Court, the second case is Land Case No. 458 of 2017 between Athuman Mbelwa Moshiwa (plaintiff) versus DART Agency (respondent) which is pending in the High Court and the third is case No. 01 of 2019 between Maxcom Africa (plaintiff) DART Agency (respondent). However, the third case has been withdrawn by the court on fourth August 2019, where the court ruled in favor of the Agency. On the other two cases, the Agency did not set aside any fund as contingent because it is confident that the outcome of the cases will be in favors of the Agency.

**6.2 Presentation of the budget information**

The financial statements in conformity with IPSAS 24 requires management of a public sector entity to show comparison of budget amounts arising from execution of the budget to be included in the financial statements of the entity which are required to, or elect to, make publicly available their approved budget for which they are, therefore, held publicly accountable. The Agency prepares its financial statements clearly indicating the actual expenditure in comparison with the approved budgetary provisions and in so doing fully complies with this standard. The statement of comparison of budgeted and actual amounts has been presented using cash basis of accounting.

**6.3 Preparation of Cash flow**

DART Agency operates with the support from World Bank. Other operating expenditures according to MOU between DART and TANROADS are being paid

THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY

through TANROADS Accounts and at the end of the financial year the Agency recognizes that expenditure by passing journal entries into respective expenditure category.

#### **6.4 Cash and cash equivalents**

Cash and bank balances in the statement of financial position comprise cash at banks, in hand and short-term deposits. Cash and cash equivalents are the most liquid assets which are readily convertible into cash, such as Treasury bills, fixed deposits and deposit in call accounts. Cash equivalents are distinguished from other investments through their short-term existence; they mature within 3 months and an important condition which should be satisfied is that it should have insignificant risk of change in value.

#### **6.5 Commitments for Acquisition of PPE**

The Agency has a sum of TZS. 5,630,688,895 that intends to compensate people in the acquisition of land in furthering more phases to the city

#### **6.6 Revenue classification**

The Agency classifies its revenue into exchange and non-exchange transactions

##### **Exchange transactions**

These are transactions in which the Agency receives assets or services, or has liabilities extinguished, and directly give approximately equal value (primarily in the form of cash, goods, services, or use of assets) to another entity in exchange. Revenue from exchange transactions for the Agency includes fees from permit on billboard and posters, Access Fees, sanitary levies, and parking fees.

##### **Non-exchange transaction**

In a non-exchange transaction, the Agency either receives value from another entity without directly receiving approximately equal value in exchange. Non-exchange transactions include amortization of grants from the government and donors and fines and penalties from performance deductions for underperformance of KPIs in TSP contract and penalties for delayed receipts from advertising companies. In the previous years, the fines and penalties were erroneously classified to exchange transactions but during the year management has reclassified the same to non-exchange transactions. During the year fines and penalties TZS 731,421,830 have been classified to revenue from non-exchange transactions.

#### **6.7 Employment benefits**

Employee's benefits include salaries, pensions and other related - employment costs. Employee's benefits are recognized on accrual basis and included in the

**THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY**

payables at the end of the year. The Agency Employees are members of Public Social Security Funds (PSSF). The Employees contributes 5% of their basic salary to PSSF, and the employer contributes 15% of basic salary on behalf of all employees. The Agency also contributes to the National Health Insurance Fund (NHIF), whereby both the employer and employees contribute 3% of basic salary.

**6.8 Related Party Transactions**

The Agency related party as per standards comprises of Ministerial Advisory Board (MAB) and management members. The only related party transactions during the financial year ended 30th June 2020 was the remuneration availed to the Board members and key Management staff. During the year under review, the Board members and key Management Staff remuneration are summarized below:

	2019/2020 TZS	2018/2019 TZS
<b>Ministerial Advisory Board</b>		
Ministerial Advisory Board Allowances and Annual Directors Fees	-	28,160,000
	-	<u>28,160,000</u>
<b>Emoluments to key Management Staff</b>		
Salaries	432,480,000	601,920,000
Allowances	364,500,000	948,960,000
	<u>796,980,000</u>	<u>1,550,880,000</u>

**6.7 Financial Risk Management**

Exposure to currency, interest rate, liquidity and credit risk arises in the normal course of the Agency's operations. This note presents information about the Agency's exposure to each of the above risks, policies and processes for measuring and managing risk, and the Agency's management of capital. Further quantitative disclosures are included throughout these financial statements.

**Credit risk**

Credit risk is the risk of financial loss to the Agency if customers or counterparties to financial instruments fail to meet their contractual obligations, and it arises principally from the Agency's investments, receivables, and cash and cash equivalents. The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk as at 30 June was:

THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY

	2019/2020 TZS	2018/2019 TZS
Receivables	5,992,263,441	4,751,101,620
Cash and cash equivalent	6,687,222,267	11,388,280,523
	12,679,485,708	16,139,382,143

### Receivables

Receivables are mainly amounts owed by advertising companies from bill board permits and bus operator (UDART) from performance deductions.

### Cash and cash equivalents

The Agency does not consider if there to be any significant exposure to credit risk.

### Liquidity risk

Liquidity risk is the risk of the Agency not being able to meet its obligations as they fall due. The Agency's approach to managing liquidity risk is to ensure that sufficient liquidity it's available to meet its liabilities when due, without incurring unacceptable losses or risking damage to the Agency's reputation.

The Agency ensures that it maintain sufficient cash on demand balances to meet expected operating expenses through the use of cash flow forecasts.

The sources of fund include access fees, income from billboard permits, sanitary charges, levies from parking areas, government subsidies, foreign grants, and other miscellaneous income.

### 6.8 Provisions

Provisions are recognized when the Advisory Committee has a present legal or constructive obligation because of past events, when it is probable that an outflow of resources embodying economic benefits and/or service potential will be required to settle the obligation and a reliable estimate of the obligation can be made. However, the Agency has not made any provision during the year.

### 6.9 Review of Assets with zero carrying values

The management has reviewed the useful life of some of its non-current assets that had zero carrying values in the books but still used in daily operations. These assets include computers of TZS 198,729,671 equipment of TZS 32,575,694 furniture of TZS 83,639,294 and motor vehicles of TZS 100,634,659. Thus, rates used to depreciate these assets are different from those shown under depreciation policy of the Agency (page 29).

THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY

**7.0 Prior Period Adjustments and reclassifications**

For the following material prior-period reclassifications and adjustments, where there is an impact relating to 2018/19, the 2018/19 comparative figures at the individual line item were restated, as summarized in the tables after the following explanations;

The adjustment of TZS 29,470,822,255 is the rectification of balance for tax payers fund and restatement of understated revenue in prior year whereas, fund received for land acquisition was erroneously posted to tax payers fund. Thus, the adjustment has debited the tax payers fund and credited revenue with the same amount as the matter of rectification and proper presentation.

The adjustment in amount of TZS 4,920,874,739 reflected to Accumulated Surplus is the effect of number of adjustments as summarized below,

7.1 Receivables was credited by TZS 207,954,651 and same amount debited the Accumulated Surplus being the net effect of the following;

7.1.1 Overstatement of receivables from billboard permits include TZS 348,941,016, TZS 80,405,281 and TZS 104,331,705 for Alliance Media (T) Limited, AI Outdoor and Spark Venture came after management recalculations of penalties of delayed payments to align the advertisement contracts after the former calculations erroneously including VAT portion in penalties.

7.1.2 Recognition of refunds of TZS 246,717,193 from other government entities that DART is to be refunded from earlier paid compensations for land acquisition after government directives of refunds to DART.

7.1.3 Recognition of receivables TZS 56,627,085 for Urafiki Textile that was previously amortized from leased land, however, the lease arrangement has been withdrawn and the money paid will be refunded to DART, thus the adjustment restate the original amount paid.

7.1.4 Recognition of receivable amount of TZS 22,379,073 paid to NMB as bond for tax exemption that was previously expensed in anticipation of tax payment but later the Agency.

7.2 TZS 4,554,255,355 was debited to accumulated depreciation and credited to Accumulated Surplus, whereas TZS 4,394,847,057 was overstatement of depreciation charged in previous years which came after management decision for correction of its depreciation estimates in the compliance of depreciation estimates as per issued government circular no.2 of 2017/2018 "testing for impairment and charging depreciation" and TZS 159,408,298

THE UNITED REPUBLIC OF TANZANIA  
PRESIDENT'S OFFICE  
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT  
DAR RAPID TRANSIT AGENCY

reflects the adjustment to assets after management decision to review the useful life of some of non-current assets which was having zero carrying values while they were still in use

- 7.3 Recognition of motor vehicles, furniture and equipment costing TZS 450,509,418 and TZS 162,529,758 respectively which were previously handed over to DART from TANROADS without any value, not included in fixed asset register. Currently, management has given value these assets and include in its register.
- 7.4 Removal of assets of TZS 38,465,143 which is a net of TZS 40,884,120 and TZS 2,418,977, cost and accumulated depreciation of infrastructural assets (BRT lane and polls) respectively that was previously recorded in error in DART asset register, however these assets belongs to TANROADS
- 7.5 Salary arrears TZS 23,280,000 was reclassified from a liability of employee benefits to payables to reflect the payables of employees.
- 7.6 Fines and penalties TZS 1,601,320,046 was reclassified from Revenue from exchange transactions to Revenue from non exchange transactions in the compliance of IPSAS 23 "Revenue from non exchange transactions"
- 7.7 Sitting and special allowance of TZS 154,654,431 was reclassified from Supplies and consumables used to Wages, salaries and employee benefits in the compliance of GFS codes exists in new government accounting system, Mfumo wa Ulipaji Serikalini (MUSE).
- 7.8 Expenses for computers, motor vehicles, outsource maintenance contract services, and tyres and batteries both in the amount of TZS 777,378,273 was reclassified from Supplies and consumables used to Maintenance Expenses in the compliance of GFS codes exists in new government accounting system, (MUSE).
- 7.9 Bank charges of TZS 23,632,076 was reclassified from finance costs to Supplies and consumables used Expenses in the compliance of GFS codes exists in new government accounting system (MUSE).
- 7.10 TZS 908,400,628 was credited to Supplies and consumables used to reflect the effect of above reclassifications. Implying the reduction of TZS 154,654,431 and 777,378,273 for Wages, salaries and employee benefits and Maintenance Expenses respectively, and addition of TZS 23,632,076 from finance costs.
